FINANCIAL AND COMMERCIAL.

WEDNESDAY, Aug. 29. A market which can behave as did our market to-day after an occurrence like that of yesterday needs no apology. Starting in with advances practically all through the list running as high as a point in Union Pacific, 11/2 points in Northern Pacific and Pennsylvania, 2 points in Great Northern and 4% points in Canadian Pacific, tremendous activity ensued, so that in the first quarter of an hour the total transactions were little under a quarter of a million shares, a record only exceeded on the Monday following the announcement of the Union Pacific and Southern Pacific dividends. Individual transactions of 10,000 shares were not at all uncommon, and prices fluctuated with unusual rapidity, the interests working for a decline pursuing aggressive tactics with a view to uncovering stop orders, while the buying was of such a character as speedily to bring conviction as to the danger of pushing the market too far. American stocks were quite strong in London, and there was considerable foreign interest on the buying side here, the opinion being entertained that a large number of options on American stocks antedating the declaration of the Harriman dividends were still uncovered. The movement in Canadian Pacific, which was one of the most notable of the forenoon's advances, appeared to have been directed from London, but while there were a good many rumors to account for it, the most tangible foundation seemed to be found in the continued growth of earnings, the returns for July showing increases of \$1,338,793 and \$734,033 in gross and net respectively.
While Canadian Pacific was strong Reading was weak, an enormous amount of this stock being thrown upon the market, ostensibly representing liquidation by some interests in Philadelphia, but, as the after-noon rise fairly well disclosed, as part of a scheme to catch stop orders and shake out the weak following preparatory to a resumption of the upward movement. Tow-ard midday the market became somewhat dull, but in the afternoon it took on great strength under the leadership of the Hill stocks, Union Pacific and St. Paul, and closed at substantial advances all round. It was rumored that an announcement would soon be made regarding acquisition of control of St. Paul by Union Pacific interests, while the statement was made on apparently good authority that official anreement would be made of the consummation of the Great Northern ore deal before long and that the main feature of this would be a distribution of stock of the holding company which is to take over the ore lands to the stockholders of Great Northern in the form of a 100 per cent. stock dividend. A sharp decline in demand sterling re-

vived rumors of gold imports and left little doubt that the movement in this direction would begin soon notwithstanding assurances emanating from banking sources that no immediate engagements were considered necessary. The banks sustained a further loss of cash to the Sub-Treasury, and a shipment of \$750,000 was made to San Francisco for crop moving purposes. The time money market was unchanged. but rates on call were somewhat stiffer than yesterday, with 6 per cent. bid at the close. Reports from Philadelphia regarding the condition of the Real Estate Trust Company indicated that the failure was probably not as bad as had been supposed, and while there were rumors of the possibility of a resumption and the discharge of the receiver within a couple of days these stories lacked confirmation. That the institution did not owe its collapse directly to real estate speculation deprived the occurrence of one of its most serious aspects in its bearing on the general real estate situation throughout the country, so that it was felt that the effect upon the market, which at worst was almost wholly sentimental, had entirely passed away. Atchison made a new high record, but renoon, and Chesapeake and Ohio also reached higher level than it had ever before touched on even more optimistic dividend expectations than those heretofore entertained. But perhaps the most encouraging feature of the whole market was the well sustained orderly advance in United States Steel on large buying believed to be in anticipation of the acquisition of the Great Northern ore lands on favorable terms. The prosperity of the copper trade was indicated by increases in the dividends of the Wolverine and Copper Range companies, both of which operate in the Lake Superior district. Directors of General Electric declared the regular 2 per cent. quarterly dividend on the stock of their company. Earnings of the Seaboard Air Line for the month of June showed an in-

THE OUTSIDE MARKET.

Prices for securities in the outside market to-day during the forenoon were only moderately active and displayed considerable irregularity, several stocks which seemed to be particularly under pressure exhibiting notable weakness. After the noon hour, however, there was an improving tendency to the trading and the market recovered slightly. Boston, British, United and Butte were strong features, but Greene Copper and Greene Gold-Silver were especially weak. The decline in Havana Tobacco continued, the stock falling 2 points to 15, but railied to 16 before the end of the day. Chicago Subway was fairly active and recovered all of yesterday's loss. The other industrial shares were heavy. The bond market was quiet.

Bostow, Aug. 29:—The market for coppers to-day, after hesitating in the early trading, became steady later on the announcement of an increased dividend on Wolverine. Business was well distributed, more attention being paid to the high class copper shares. The market closed steady at about the best prices of the day.

Wheat ended at a small decline on local selling and the dulness of the export trade. Early prices were slightly lower. They showed no decided drift either way. Certainly no great decline took place, for the English markets were steady, further rains occurred in the Northwest, the receipts at the Northwest were small and the stock at Minneapolis is rapidly decreasing. In other words, Liverpool advanced %d. as an offset to lower Continental markets and the weather was rather bad in the American and Canadian Northwest. Liverpool advanced on a better demand, both for cargoes and small lots, the Continent still buying cargoes off coast. Light American receipts and the ner-yousness of shorts also influenced Liverpool

London advices in some cases assert that the rains in Russia have inflicted grave damage on the wheat crop and that the crop is of

Paris declined equal to % to 1%c., and Berlin % to %c., though Liverpool ended %d. higher for the day and Budspest advanced 1%c.

The Manitoba cron is asserted by some to be 10,000,000 to 15,000,000 bush. smaller than that of lart year.

Samples of wheat received from Minneapolis by one house were of excellent quality, the cash trade was dull, the demand for flour showed no improvement and the narrowness of the speculation was in itself a depressing influence for a time.

But later in the day buying by commission houses and covering of shorts caused a rally. According to the Northwestern Miller showerly weather has interfered with harvesting and perhaps affected the quality of 20 per cent. of the spring wheat crop. Bears showed no disposition to take the aggressive, even if the same is true of the bulls. It is largely, in fact, a waiting market.

Chicago got only 84 cars, including 50 of contract grade, and expects 80 to-day. The total primary arrivals were 486,000 bush, against 633,000 last week and 790,000 last year, with shipments of 560,000 bush, against 225,000 last week and 530,000 last year. The seaboard cleared 23,000 bbls. of four, making 65,000 thus far this week, against 225,000 last week and 530,000 bush, were exported, making 661,000 in three days, against 1,322,000 in the same time last week and 179,000 last year.

Armour brokers were prominent in the selling. Brosseau was a good buyer of December and May.

Finley Barrell & Co. said: "We believe liquidation in wheat is practically over and that strong interests are quietly accumulating wheat on all soft spots."

Sidney C. Love & Co. received the following: St. Louis—"Our stock of wheat decreased \$2,000 bushels over night. I am told our stock of No. 2 hard wheat all sold to go out. There is about half a million bushels of it." Chicago—The Imperial Elevator Company has twelve samples over night. I am told our stock of No. 2 hard wheat all sold to go out. There is about half a million bushels of it." Chicago—The Imperial Elevator Company has twelve s

Wheat Quiet, Ending Slightly Lower-Corn and Oats Firm.

age on the wheat crop and that the crop is of poor quality.

Logan & Bryan said; "There is only one delivery, 8:30 to 9:15, on Saturday. September deliveries taken in on Saturday will have to be carried over until Tuesday, as Monday is a holiday."

Some unfavorable reports about the condition of wheat in some parts of Minnesota and North Dakota were in circulation.

Paris declined equal to % to 1%c., and Berlin % to %c., though Liverpool ended %d. higher for the day and Budapest advanced 1%c.

valling money rates doubt if outsiders will be prepared to carry much wheat."

valling money rates doubt if outsiders will be prepared to carry much wheat.

THE CORN SITUATION.

Some advance took place early, more particularly in September corn. The receipts were but moderate and people hesitate to sell the market short until the movement of the crop is large. They have been caught in that trap before. Liverpool closed unchanged to id. higher. Fluctuations largely depend upon receipts and shipments. Meantime the weather is in the main favorable and the crop reports are generally very promising. Armour bought September, It is said that new corn is being offered in the Southwest rather freely for October shipment at prices which will permit exports from Gulf ports at current freight rates.

The strength of September had more or less effect on the whole list. Chicago received 170 cars, including 90 of contract grade, and expects 217 to-day. The primary receipts were 577,000 bush, against \$20,000 last week and 864,000 last 'year, with shipments of \$26,000, against 400,000 last week and \$55,000 last year. The seaboard cleared \$5,000 bush, making 262,000 thus far this week, against 400,000 last year.

sgainst 420,000 in the same time last week and 400,000 last year.

Rather lower prices prevailed early owing to the large receipts and the lack of any very urgent demand for cash cats. Interior stocks are increasing and the receipts show that the interior demand is net especially active. There is said to be some nervousness among September longs at Chicago owing to the possibility, it is stated, or big deliveries on Baturday, Stocks of cats at Chicago in private elevators are by some suspected to be larger than they are reported to be.

Bhorts covered later on owing to the firmness of corn and prices advanced slightly. The cash demand was more active, with prices at the West ½ to ½c. higher.

Chicago received 168 cars, including 39 of contract grade, and expects 188 to-day. The total primary receipts were 873,000 bush. against 874,000 last week and 915,000 last year, with shipments of 444,000, against 300,000 last week and 235,000 last year. There were no clearances from the seaboard. Thus far this week 9,000 bush. have been exported, against 87,000 in the same time last week and 174,000 last year.

Chicago, Aug. 28.—"Oats show decidedly strong undertone and all sales made by the Patten party are quickly absorbed, as were the hedging sales by the Northwest at opening. The buying points to Lichstoin. Several large operators are also buying."

THE COTTON MARKET.

Fine Crop Prospects and Big Receipts Cause Another Decline-A Bullish Private Crop Report -Covering Causes Late Rally.

Again the market was weak early because of much cotton. Columns might be written too on the subject, and it would come to this and nothing more. Cotton is pouring into the Southern ports, the crop reports are favorable, the belief is general that the next Government report will hold out hopes of one of the biggest yields on record, and to cap the climax Liverpool, which had apparently been favoring the bulls somewhat of late, suddenly broke badly. Bullish arguments were of no avail. A new statistician stated the general condition of the plant at 78.2 per cent, but it had no effect. The Georgia crop is looking better, and although deterioration is reported in Louisiana and Arkansas that is nothing unusual during August. It is believed that it is no greater than in some of the best years on record. Meantime room traders hammered the market.

August. It is believed that it is no greater than in some of the best years on record. Meantime room traders hammered the market, and if the buil leader gave any support its effect was not clearly perceptible. Whether the market can still be sold short with impunity for any great length of time remains to be seen. The universality of the bearish sentiment seems at the moment about the only thing on which a bull can count to bring about a rally—in other words everybody is a bear, and in such circumstances the bear side is very apt to be overdone. A rally, however, in such conditions would probably prove to be only temporary. The South and spot interests were selling, and most of the buying was simply to cover shorts. Yet the covering late in the day was so active that much of the loss was recovered before the close.

Dick Brothers & Co. sald: "We cannot consider the market in a strong position, even on the basis of 9 cents for January. Technically the market is far from strong in spite of the overwhelming bearishness of sentiment. The reason is that even the most bearish impressit keep feeling for the temporary bottom. The reactionists have lost their position several times, and when one considers the ultimate goal they have had in mind they are little better off than the conservative buil element. There was more or less buying through the day of an evening up character in anticipation of the holidays over Saturday and Monday for Labor Day. There is a general impression that the crop has experienced the usual deterioration. This feeling is becoming more pronounced as the time for the next bureau report approaches. There is no longer any talk of an improvement, and it seems to be a foregone conclusion that the condition figures will show as low as 77. Of course this is not equal to the average by about 4 points and in the end would receive bearish construction. The immediate effect of such figures, however, micht be to cause some hesitancy in short selling. The crop is a late one except in south Texas, but if fro Hubbard, Ray, Mitchell and Craig were buyers.

Marshall, Spader & Co. said: "There is very little that is attractive in the market at this time to operators for an advance, though notice day developments may give an opportunity for a turn in the market of this kind. Directly or indirectly, the local stock constitutes a depressing influence and one which is likely to be reflected on that day. Meantime, other are at

work which work against support by the public or anxiety of consumers to secure supplies. Some reaction should follow the present downward movement, and we judge this will quite likely take place when the intention of holders of spot cotton shall develop Friday morning. September commitments have not been heavy, and we hardly expect more than a temporary effect of

mitments have not been heavy, and we hardly expect more than a temporary effect of notices."

Cotton on the spot declined 10 points. Middling, 9.80c., against 11.15c. last year; New Orleans and Gulf, 10.05c., against 11.40c. Sales, 400 bales for spinning. The Southern spot markets were unchanged to 3-15c. lower. Middling; Galveston, 9½c.; New Orleans, 9½c.; Mobile, 9c.; Savannah, 9 1-16c.; Charleston, 91/c.
The movement was as follows:

To-day. Rouston..... 8,000-9,000 Galveston..... 5,000-6,500 The exports from the ports were 10,038 bales.
Futures declined 14 to 16 points, but recovered part, closing 3 to 5 lower, with the tone steady and the estimated sales 500,000 bales. Prices as follows: Dates. Prices as follows:

MISCELLANEOUS MARKETS. Coffee Heavy-Long Liquidation-Provisions Steady.

Coffee continued to show heaviness, though the fluctuations in prices were not very marked. But long coffee was thrown on the market by local and Wall Street interests, and the receipts at Rio and Santos continued large. Europe bought to some extent and there was more or less new buying by the believers in higher prices, but the principal support came from the covering of shorts. Late in the day the tone was firmer on covering and lighter offerings.

ing and lighter offerings.

Coffee on the spot was quiet and steady, Rio No. 7, 83/403/4c. Futures closed unchanged to 5 points higher, with the tone steady and the sales 123,500 bags. Havre was unchanged. Hamburg declined 1/4 to 1/4 pfg., but recovered 1/4 pfg. of the loss. Rio declined 125 reis; receipts, 20,000 bags; stock, 395,000. Santos declined 50 reis; receipts, 65,000 bags; stock, 1,137,000. Prices here as follows:

April.... 6.85 6.80 6.80 6.85 6.75 66.85

Provisions.—Lard was dull; prime Western, \$9.15; refined Continent, \$9.25; South American, \$10. Pork was quiet; mess, new, \$192 \$19.25. Tallow-514c. Butter—Cramery, firsts, 24c. Eggs—Western, firsts, 216.22c. Chicago, Aug. 29.—"The undertone was heavy. Bull interests gave some support to nearby ribs and lard; this holding the market fairly steady. January product was off on selling led by large, Western packers. Sentember liquidation is still a bearish factor." Prices as follows:

SUGAR.—Raw was firm and quiet; centrifugal 96 test, 4c.; muscovados 89 test, 3 7-16 @3\cdot c. Refined was in fair demand and firm; granulated, 4.80\(m_0.40\) oc.

NAVAL STORES.—Spirits of turpentine, 650.
